Thanks Rob for your all your efforts on this, with the multiple “ Chiefs” calling shots for the last 100 plus hours!

Staff Sergeant Hull will be returning to the NCRCC tomorrow morning and through the weekend to liaise with all traffic partners, municipal partners and designated inter-provincial police services and reporting to Insp. Lucas and his afternoon designated relief (it appears to be changing daily)

Russel, I'll call you later this afternoon, if we have to smooth out any loose ends (I'm sure you have been briefed on the multiple taskings assigned to the TEE/MDT/ICM Group over the last couple days.)

Michael Ryan,
Inspector,
TEE, Courts & Custody,
Specialized Policing Directorate.

This is my plan, as far as I am concerned this is 99% complete . There could be changes as a result of an ongoing Executive Ops Plan meeting .

This plan has NOT been approved at this time

Wondering if we have someone allocated to the NCRCC to act as Traffic Command please ?

Rob
